

Software Engineer

 github.com/EkyGalih  gitlab.com/EkyGalih

Hi, I'm Eky! A passionate Software Engineer with over 9 years of experience in web development, excelling in both backend and frontend roles. My expertise includes a range of programming languages and frameworks, such as PHP, Node.js, React.js, Next.js, Golang, and Python. I am always eager to learn new skills, and reading is one of my favorite hobbies.

Work experience

Network Engineer

2020 - 2024

BPKAD NTB

- Served as a Network Engineer at BPKAD NTB from 2020 to 2024.
- Designed and implemented robust network infrastructure, ensuring seamless connectivity and optimal performance.
- Conducted regular network monitoring and troubleshooting, promptly resolving issues to minimize downtime.
- Collaborated with cross-functional teams to assess network requirements and implement appropriate solutions.
- Implemented security measures to protect the network from potential threats and vulnerabilities.
- Managed network documentation and maintained accurate records of network configurations and changes.
- Provided technical support and training to end-users, ensuring efficient utilization of network resources.
- Stayed updated with the latest industry trends and technologies, implementing best practices to enhance network efficiency and reliability.

Fullstack Web Developer

2019 - 2020

PT. Netzen Media Akses - Mataram

- Designed and developed a robust Point of System program, streamlining business operations and improving efficiency.
- Identified and resolved bugs in existing software, ensuring smooth functionality and a seamless user experience.
- Developed APIs for ordering and transaction processing, enhancing the capabilities and flexibility of the system.
- Successfully deployed applications to domains and hosting services, ensuring accessibility and availability to users.
- Collaborated with cross-functional teams to gather requirements and translate them into functional and technical specifications.
- Conducted thorough testing and quality assurance to ensure the reliability and stability of the software.
- Maintained clear and concise documentation, facilitating ease of understanding and knowledge transfer.
- Proactively sought opportunities for professional growth and skill development, staying updated with the latest web development technologies and best practices.

Software Engineer

2020 - 2021

Bumi Nusantara Tecno - Mataram

Skills

PHP

Python

next JS

React JS

GoLang

Web Developer

Software Engineer

- Developed the SIAKAD application as part of the INGES system, streamlining administrative processes and improving data management for educational institutions.
- Identified and resolved bugs in the SIAKAD application, ensuring smooth functionality and optimal user experience.
- Designed and implemented RESTful APIs for efficient data processing, enhancing system performance and enabling seamless integration with other applications.
- Monitored the SIAKAD system, proactively identifying and addressing any issues to minimize downtime and ensure uninterrupted operation.
- Utilized a concise and action-oriented language to describe responsibilities and achievements, avoiding unnecessary details and jargon.
- Maintained consistency in formatting, tense usage, and style throughout the work-history section, enhancing readability and professionalism.
- Ensured clarity in communication by providing specific details and examples of accomplishments, such as the successful implementation of the SIAKAD application.
- Proofread all documentation and reports, eliminating grammatical errors and typos to present a polished and error-free application.

Fullstack Web Developer

2020 - 2021

Al-Azhar University - Mataram

- Developed and maintained the INGES app as a full-stack web developer, contributing to its successful implementation and functionality.
- Identified and resolved bugs and technical issues, ensuring the smooth operation of the app.
- Collaborated with cross-functional teams to gather requirements and implement new features and enhancements.
- Utilized a wide range of web development technologies and frameworks to create user-friendly and visually appealing interfaces.
- Conducted thorough testing and quality assurance to deliver high-quality and error-free code.
- Actively participated in code reviews and provided constructive feedback to improve overall code quality.
- Demonstrated strong problem-solving skills in troubleshooting and resolving technical issues.
- Maintained up-to-date knowledge of industry trends and best practices in web development.

Education

Bachelor's in Engineering, Computer Science

2013 - 2018

Bumigora University
